PROFILE

I'm a Commerce graduate with a strong interest in Accounting and Taxation. Currently on the path to becoming a Cost and Management Accountant (CMA), I'm deeply passionate about understanding how businesses manage their costs, stay compliant with tax regulations, and make informed financial decisions.

During my academic journey, I developed a solid foundation in financial accounting, management principles, and business law. My goal is to work in a role where I can contribute to the financial health of a company through accurate accounting and smart cost management.
